

PUBLISHED DAILY AND TRI-WEEKLY BY
EDGAR SNOWDEN.

SATURDAY EVENING, APRIL 20, 1878.

The Senate was not in session to-day.
The House of Representatives was engaged in Committee of the Whole on the Post Office appropriation bill.

To-morrow will be Easter, a joyous day to the Christians' calendar, and their penitential season is then over and gone, as it is the anniversary of that day, nearly nineteen hundred years ago, when Mary Magdalene and the other Mary, as recorded in the Bible, came to the Sepulchre of Joseph of Arimathea, near Jerusalem, and discovered that the body of Jesus of Nazareth, the founder of the religion that is to civilize the world, had risen from the dead.

New frauds have been discovered in the New York Custom House. Indeed it seems that but few of the public buildings occupied by radicals, from the White House down to the smallest, can show a clear record. However, as none of the investigations into the frauds, no matter how clearly they may establish the guilt of the thieves, ever restore to the treasury any of the money stolen from it, or affect, in the slightest degree, the social standing of the criminals, it is to be hoped that they may be discontinued, and that the efforts to correct the evil be directed to the entire overthrow of that party under which such frauds have become so common, and the restoration of the government to honest hands, at the expiration of the term for which Mr. Hayes has been inaugurated. Until then it will be almost impossible to prevent them, for the servant is no better than the master, and when an underling can offer as an excuse for his theft the greater one of the man who appointed him, the dread of detection and punishment that would otherwise keep him honest, is removed, and the extent of his forays is only limited by his opportunities to perpetrate them.

The War Department, aware of the fact that as the grass on the prairies of the Northwest becomes green the fancies of the Indians naturally turn to thoughts of war, has directed that all the disposable colored troops be sent to that region immediately, in order, it is supposed, to afford material for the red men's bullets and tomahawks until to-morrow more worthy of their steel can be gotten ready to march against them. The poor negro, in the vain belief that by so doing he is showing his social equality with his white skinned brother, is induced to deposit his money in the Freedman's bank and to enlist in the army, merely to be robbed in the first instance and made food for bullets in the latter, and still he votes the radical ticket.

Few deaths ever occurred in this city that produced a greater shock or more general regret than that of the lady whose sudden demise is noticed in another column. Loved and respected for her many admirable traits of character by a circle of relations and friends unusually large, her almost instantaneous change from full health, in the young prime of life, to the cold embrace of death, was so startling that the whole community were affected by it, induced to reflect on the uncertainty of life, and allow their sympathy to flow out to her afflicted family.

In the House of Representatives, yesterday, Mr. Goode, the patron of the bill for the relief of William and Mary College, declined to accede to the demands of the opponents of the bill for more than two hours in which to discuss it, whereupon the opponents instituted a series of dilatory motions, which occupied all day, and eventuated in carrying the bill over for two weeks. It's better sometimes to yield a little.

We are glad the objectionable feature of the proposed law for an income tax has been removed, so that, if the tax be imposed, it will be uniform, and bear alike on all.

The Bishop of Michigan.
CINCINNATI, April 20.—A special dispatch from Davenport, states that the Bishop of Iowa has published the following card:

"In view of the serious charges published in the daily press affecting the character of the Bishop of Michigan, I would earnestly claim in behalf of this aged man, of nearly seventy years, that he should not be condemned even in the popular mind, unheard, untried, and on testimony unauthenticated by any responsible name. The House of Bishops of the American Church has always shown its readiness by prompt and severe measures to prove the honor of its members and vindicate its purity. In the present instance I beg a suspension of judgment until the diocese have time to act."

WM. STEVENS PERRY,
Bishop of Iowa.

Financial.
NEW YORK, April 20.—The bank statement published to-day is the most important one issued from the clearing house for some time past. The bank gave \$3,519,900 in legal tenders, and \$440,000 in specie, which increases the surplus reserve \$3,957,200, and raises the excess held by the banks above legal requirements to \$17,572,650. The following is the bank statement in full:

| | |
|--------------------------|-------------|
| Loans decreased | \$3,925,000 |
| Specie, increased | 440,000 |
| Legal tenders, increased | 3,519,900 |
| Deposits, increased | 126,500 |
| Circulation, increased | 23,700 |
| Reserve, increased | 3,937,200 |

The Mexican Border.
SAN ANTONIO, TEXAS, April 20.—Reliable information just reached here from the interior of the Mexican border states that an insurrection against the Diaz government is steadily but surely re-igniting. It is understood that the Lerdiz party are urging the Mexican Indians to renew their raiding operations in order to bring matters on the Rio Grande to their former unstable state as regards the United States. The commanding officer of the sub-district of the Pecos telegraphs to the Department Headquarters that the Mexican Indians are acting in concert with Indians from the Fort Stanton reservation, who are now on an extensive raid in Texas.

Foreign News.

THE EASTERN QUESTION.

The force to be sent from India to Malta will be commanded as follows:—First Brigade by General Ross, Second Brigade by General Mo Pherson, cavalry by Major Watson, and sappers and miners by Major Prendergast. Gen. Ross left Calcutta last evening for Malta.

A dispatch from Constantinople says: "The Porte has addressed a note to the Grand Duke Nicholas explaining the conditions of the promise made by Turkey to evacuate Shumla, Varna, and Batoum. It says that a great part of the garrisons of these places have already been withdrawn. The treaty of peace does not fix any definite period for evacuation, and, moreover, positions respectively occupied now are conformable to the provisions of the armistice."

"The Porte promises that in proportion as the new Bulgarian territory is evacuated by the Russians in accordance with the treaty Turkey will successively surrender one fortress after another."

"It is rumored that the Russians intend to stipulate for a certain date for the evacuation of Batoum, threatening otherwise to occupy Kavak, on the Bosphorus."

"The Turkish people and army favor England."

A dispatch from Bucharest contains the following: "It is said Russia, in view of Romania's demands and the wishes of Europe for the effectual neutralization of the Danube, will abandon her claim to Bani and other points on the Danube over St. George's Canal, but will maintain her claims for Ismail, Belgrade and Cahoul, and insist upon the negotiation of a convention for establishing depots to facilitate the passage of troops through Rumania."

"At a secret sitting of the Rumanian Chamber, M. Bratianu, explaining the results of his mission to Vienna, said Rumania could rely upon the support of Austria and Germany, in so far as the Bessarabian question is concerned, and the question of the freedom of the Danube. Neither Germany nor Austria would move Russia intended to attack that freedom, and both would be satisfied with neutralization of the Danube and certain guarantees. In view of this state of affairs, M. Bratianu recommended that Rumania should come to an arrangement with Russia."

"In consequence of this statement, several Deputies, even from the Government side, violently attacked M. Cogalniceanu, Minister of Foreign Affairs, for his recent misleading policy."

"M. Cogalniceanu declared his readiness to resign if he was censured in a public sitting of the Chamber."

"The Russian representative has also complained to Prince Charles of the violent language used by M. Cogalniceanu, and pointed out that it would be more advantageous to appease the public mind than to bring about consequences for which Russia declined responsibility."

"Both the Russian and Rumanian armies continue to concentrate at strategic points."

Special dispatches from St. Petersburg indicate that a new hitch has occurred in the negotiations. Germany proposed that a congress should be summoned to revise the treaties of 1856 and 1871. Russia accepted the proposal, but England has rejected it, and again insists on her original conditions. It now remains to be seen whether the dispute might not be settled by a preliminary conference.

Yesterday's sanguine expectations turn out to have been somewhat exaggerated or at least premature. It appears that new difficulties have arisen. Negotiations, however, continue, and may still lead to a successful result.

A special from Vienna reports that all consuls in Russia have been ordered to join their regiments in Turkey as quickly as possible.

A dispatch dated Vienna, Friday night, says it is semi-officially stated here that Germany's endeavors to mediate have so far led to no result.

A Berlin correspondent says Russia does not hesitate to intimate privately that she will not object to the Congress discussing all of the more important clauses of the treaty, but declines to make its validity dependent upon the consent of the Powers. A preliminary conference to settle whether this offer will be satisfactory is still possible, but doubtful. The typhus is raging here and the Neapolis hospitals are crowded. People are dying in the streets."

A Bucharest dispatch says Russian officials at Bucharest are preparing 16,000 transport carts to provide against the Black Sea line of communication being closed by the British fleet.

LONDON, April 20.—The Times' Vienna correspondent is evidently unaware of the hitch in the negotiations for a Congress, but considers the change of Ministry in Turkey a new element of danger, as Ahmed Vefik Effendi's presence in the Cabinet was a guarantee that nothing would be attempted against England. "His sudden removal," says the correspondent, "looks as though the Russians endeavored to seal a march on England while negotiations for settlement were pending."

The week closes with the prospects of the Eastern difficulty no brighter. The London Daily News' St. Petersburg correspondent throws the responsibility of the alleged failure of the German mediation on England in having rejected the proposal that the Congress should be summoned to revise the treaties of 1856 and 1871 and again insisted on her original conditions. However this may be it is certain that new difficulties have arisen. Negotiations, it is said, continue and may still lead to a satisfactory result, but the present delay shows that the former divergence of views is again apparent.

SAN FRANCISCO, April 20.—Nothing is known here of the recall of the Grand Duke Nicholas from the command of the army.

ST. PETERSBURG, April 20.—An order is officially published that the necessary number of men be called out from the naval reserve to form three corps of sailors for service in the fleet, two of which are to be stationed at the coast and the third at Nicolaieff. Several to-day's papers state that a preliminary conference should be accepted as a means of ascertaining the real intentions of England.

PARIS, April 20.—The papers here publish a telegram from Berlin, dated to-day, stating that England and Russia have agreed to the principle of the simultaneous withdrawal of the British fleet and the Russian troops from the neighborhood of Constantinople, but the points to which they will withdraw are not decided upon.

TIFLIS, April 19.—Gen. Melikoff will start for St. Petersburg to-morrow. The Caucasian army corps will be disbanded.

Notwithstanding the discouraging reports which prevail in St. Petersburg, the situation is really improving and the chances of a peaceful solution are growing decidedly stronger.

Prince Ghika, the Rumanian agent in St. Petersburg, left the Russian capital yesterday for Bucharest. Prince Menschikov has gone to the Asiatic frontier to receive the Shah of Persia on behalf of the Czar, and General Todleben has departed for San Stefano to take the place of the Grand Duke Nicholas, who is to return to St. Petersburg.

LONDON, April 20.—The Central News says: "The Indian Government have chartered five steamers for the conveyance of troops from India, three of which are taken for three months, their primary destination being Port Said. The other two are engaged for two months. These are the St. Asaph, a celebrated Australian steamer of 5,500 tons burden, capable of transporting 5,000 men, and the Mankin, of 3,500 tons, capable of carrying a full regiment."

The United Servia Gazette (weekly) issued

to-day, says that it has good reason for stating that there will be a strong combined channel and Baltic fleet formed during the next two months.

From Washington.
[SPECIAL TO THE ALEXANDRIA GAZETTE.]
WASHINGTON, D. C., April 20.

SENATE.

The Senate was not in session to-day.

HOUSE OF REPRESENTATIVES.

In the House of Representatives the bill relative to the Washington Market Company was passed.

The House then went into Committee of the Whole on the Postoffice appropriation bill.

Mr. Deau was appointed a member of the Committee on Expenditures in the State Department in place of Mr. Walker, of Va., resigned.

NOTES.

The Committee of Ways and Means of the House has determined to report a uniform tax of 2 percent, on incomes above \$2,000. Persons are not required to make returns of their incomes under oath, but if detected in making fraudulent returns, severe penalties are to be imposed.

The same committee have agreed to reduce the tax on tobacco to 16 cents.

Senator Johnson, to-day, went to Alexandria to visit Col. Withers, who is still suffering from an affection of the eyes.

Mr. Geo. Duclaux, of the Capital newspaper, was bitten by a dog in Alexandria a day or two ago, is suffering severely from the wound in his hand.

In the House of Representatives, yesterday, Mr. Goode presented the petition of citizens of Virginia for an appropriation for the establishment of automatic tugs; and Mr. Tucker, the petition of citizens of Campbell county, Va. for the passage of the Texas Pacific Railroad bill, both of which were referred.

The bill relative to the Washington Market Company, passed by the House to-day, provides for the transfer of nearly four acres of ground, on Pennsylvania avenue, to the District of Columbia upon the award of a board of arbitrators.

The Majority.

To the editor of the Alexandria Gazette:

ALEXANDRIA, VA., April 20.—Speaking simply for myself—but expressing, I am sure, the feelings of many—I cannot help from expressing my gratification on hearing that Mr. George L. Simpson has consented to be a candidate for the Mayoralty of the city of Alexandria.

It is needless to speak of Mr. Simpson in the orthodox and hackneyed political laudation. Nor does he need it. His private life and public career are open to the gaze of all his people, and the record is one that any man can be proud of. In all his social relations, a high toned gentleman; in his business transactions, conscientious and upright; and in his political career, staunch and reliable. He is that kind of man who would worthily fill the high public trust of Mayor. The peer of any candidate, and by his intellect, education and sound judgment, eminently fitted for the place. I need not one and only one objection against him, and that is his age. Surely gray hairs are not to be a test or natural qualifications for office; if so the State and the National Congress would be shorn of its brightest ornaments.

THIRD WARD.

A THREE EYED BOY.—The Dayton Journal prints a letter from New Bremen, Ohio, dated 15th instant, which says:—"Quite a wonder has lately made its appearance, about eight miles north of New Bremen, in the shape of a fine boy with three eyes and but one ear. The parents are a young married couple who came here to reside from the eastern portion of Aug'za county, about ten months ago, and have been married little more than that period. The child is about two weeks old. The parents were astounded to find on the right side of the face an eye and an ear in their proper natural position, and on the left side of the face another eye in its natural position, and about an inch further around, on the left side of the head, a third eye, all perfect in form, but no ear where the ear ought to be, the place for the left ear being perfectly smooth and solid as other parts of the head. The boy is healthy, sound, and bright as a baby can be. The eyes are perfect in sight and action. When the eye on the left side of the face opens or shuts its twin does the same, both seeming to be controlled and operated by the one set of nerves."

Miscellaneous Foreign News.

A serious strikers' riot has occurred at Sloman, near Glasgow, and several houses were wrecked and telegraph lines destroyed.

Letters from General Macao state that a new Cuban provisional government has been formed and hostilities against Spaniards renewed.

FLORENCE, April 20.—A banquet is to be given here to-night to General Grant, by the widow of Mr. J. L. Graham, late U. S. Consul in this city, to which the leading ladies of Florence have been invited.

CHEWING GUM AT VASSAR.—Perhaps the meanest thing, speaking artistically, is the way they run the gum department at Vassar College. Gum, for reasons best known to the faculty, is left off the catalogue; and so the girls have to chew it all over the twenty-four hours. In the history class, for instance, just as the girls all get the gum soft on the molar, along comes the question, "What year was America discovered?" And then comes the distressing answer from the whole class, "Ajum, wabum, oigh, eeb, wab." This is gum for 1492.

The Eighth Congressional District.
To the editor of the Alexandria Gazette:

The time honored Gazette comes to us regularly to instruct and cheer. Through its columns we are kept posted as to the world generally. The people of this region feel a deep interest in the Congressional canvass, and James V. Brooke is evidently the choice of this section.

FARMER.

Attempted Murder and Suicide.
BUFFALO, N. Y., April 23.—Joseph Bismont last night attempted to kill his wife by beating her on the head with a flat iron. She lies in a very critical condition. He is thought to be insane. He attempted suicide some time since by cutting his throat.

COURT OF APPEALS OF VIRGINIA.—King's executor et al. vs. Malone et al. Argued by Judge Budd and Charles F. Collier for appellants, and Samuel D. Davies, W. F. C. Gregory and Geo. S. Bernard for appellees and submitted.

Finney vs. Edwards. Certiorari awarded to bring up a part of the record which was omitted.

Clinton Gardner, a young man twenty-three years of age, son of Dr. Jacob Gardner, of Falls Church, and an employee of the Baltimore and Potomac Railroad Company, has been missing ever since last Wednesday. On Tuesday he was paid his salary, and he was last seen in company with a stranger on Wednesday morning in Harvey and Holden's restaurant, in Washington.

Myersburg's silk operatives, at Patterson, were paid in gold yesterday; the first time in seventeen years.

News of the Day.

Several encounters between Orange Young Britons and Irish Catholics occurred yesterday in Montreal. As the Britons were marching to church that forenoon, a Catholic attempted to cross through the procession. He was pursued into Notre Dame Catholic Church, where some fighting occurred. Charles O'Hara, who attempted to shut the door on the intruders, was badly beaten. There was more fighting at 11 o'clock last night in Victoria Square. Stone throwing and pistol shooting were indulged in until a party of police arrived and quelled the disturbance. An artillery volunteer named Cole received severe wounds, and Police-man Martin was dangerously wounded in the head. Several large plate glass windows were broken. The police were out in strong force, and cleared the streets of the disturbing element. Considerable party feeling exists in the city, arising out of the trials going on of those who took part in the late shooting affray in the city.

The Burk Azur, with Liberian emigrants, has not sailed yet from Charleston, having been obliged to discharge 147 people illegally taken as passengers. Thursday night when those who had been selected to go went below for the night they found nearly every bunk occupied. Upon investigation it turned out that a large number had smuggled themselves on board in the hope that once at sea it would be impossible to send them back. With much difficulty they were put ashore yesterday.

Six steamers sailed from New York for Europe to-day, taking good lists of passengers. Full freight, including 255,000 bushels of grain, 200,000 American cigars, large quantities of dry goods, beef and all kinds of provisions and produce, canned meats, 300 head of cattle 54 horses, etc.

The Burk Azur, the steamer, is in St. Louis, where he will make several balloon trips. In one the balloon is to be exploded, in another the professor will go up on horseback, and in the third there will be a horse and carriage, with seats for a family.

Indications of an active railroad war in eastern bound passenger routes are appearing. Yesterday the Pan Handle reduced rates from Cincinnati to New York to \$13. This is followed by the Atlantic and Great Western putting the rate down to \$11.

For three months, ending March 31, 1878, the number of failures in the United States was 3,355, with liabilities estimated at \$2,075,000. During the same period last year the failures numbered 2,859, and liabilities amounted to \$54,538,000.

The postal excursion party visited St. Augustine, Florida, yesterday, and subsequently left Jacksonville on their return to Washington. The party will probably stop at Charleston and Richmond on their way home.

Leonard Strout, a farmer of Geauga county, Ohio, had a dispute with his wife concerning some property on Thursday, and after stabbing her committed suicide by cutting his throat. The wife died yesterday.

Three hundred thousand ounces of fine silver have been purchased by the Government, for delivery at the Carson Mint, for coinage \$20 dollars.

Wesley Turner, Jackson Edmunds and Alex. Brown, convicted of murder, will be executed on Monday at Frankin, St. Mary's parish, Louisiana.

Flies were at half mast in Lowell, Mass., yesterday, in memory of what the telegram from that city styles the "Baltimore massacre in 1861."

R. P. F. Lyndon, Vice General of the Archdiocese of Boston, died last night after a brief illness.

WITNESSES BEFORE THE GRAND JURY.

A large number of witnesses were summoned to appear before the Hastings Court to testify before the grand jury. The summons, after stating the names, read as follows:—"To appear before the Hastings Court for the city of Richmond, &c., to testify and the truth to say before the grand jury there to be in session."

This morning Mr. C. V. Meredith, being employed by several of them to object to the manner of their being summoned, moved to quash the subpoenas as being improperly issued. He based his motion on the language of the 26th section of chapter 172 of the Code of Virginia. This section, after stating that a person may be summoned to give evidence before a court, says, &c., and after stating who may issue the summons, further says:—"It shall express upon whose behalf and in what case, or about what matter the witness is to attend." Mr. Meredith contended that as the subpoena did not state either "on whose behalf," "in what case," or "about what matter" the witnesses were to attend the process should be quashed as being improperly issued.

In the course of his argument Mr. Meredith alluded to the fact that he had been informed that many of these witnesses had been summoned by reason of anonymous letters sent to the Judge, but that he did not know it as a fact. But if so, he appealed to the Judge to let no more be summoned for such a cause. He based his appeals on not only justice to many of the citizens of Richmond, but on the further ground that it would diminish that respect and admiration that Virginians have for their judiciary. They would not be looked upon as dispensers of justice, but as inquisitors. He further claimed that to notice such letters would be to encourage the lowest and meanest of men to keep out of the law, and that a virtuous man may be brought by reason of such a letter to testify about houses of ill fame. Such a letter may have been prompted by party spirit, and that however ignorant of such a place a man may be, there are those who would believe and say that he knew more than he told. These, with other arguments, he pressed earnestly upon the court.

The court overruled the motion, and commanded the witnesses to be sworn, which was done and the witnesses sent before the grand jury.

Each witness, upon going before the jury, was asked the following question:—"Do you know of any violations of law in the past twelve months, especially that of adultery, gambling, and Sunday liquor law?"

The result was that nineteen well known bar-keepers were indicted for selling liquor on Sunday. The names of large numbers of others are before the grand jury for indictment.—Richmond State.

FATAL RESAWAY.—Barnum's circus baggage wagon, an immense truck drawn by two powerful horses, driven by John Strickland, of 525 West thirty-third street, was passing Ninth avenue and Forty-second street, New York, Thursday, when the animals were alarmed at an elevated railroad train and ran away east.

The large vehicle was empty, and the driver made a vain attempt to keep out of the way. The horses appeared to acquire greater speed as they neared Fifth avenue and dashed toward the Grand Central depot. In front of the depot the wheels of the wagon caught in the network of switches and tracks, and those on the left side were wrenched off. This was between Fourth and Lexington avenues, just below the Grand Union Hotel, and the shock of the wagon lurching threw Strickland, who had courageously kept his seat and his hold on the reins and brake, to the pavement on the south side of the street. He fell on his head and his brains were scattered all over the pavement. The body of the unfortunate man was taken to the Thirty-fifth street station house, and portions of the skull above the ears remained, and the vertebrae of the neck were drawn inward. His brains were scattered over a circle eight feet in diameter. Death was of course instantaneous. The body of the unfortunate man was taken to the Thirty-fifth street station house, and portions of the skull above the ears remained, and the vertebrae of the neck were drawn inward. His brains were scattered over a circle eight feet in diameter. Death was of course instantaneous.
